

# SUPPORTING SUSTAINABILITY OF ACCELERATED LEARNING

## A TWO-DAY STATEWIDE CONVENING

Learn to effectively align and use all your resources—time, money, people, political capital, and partnerships—to accelerate learning and improve student performance.

## ABOUT THE WORKSHOP

The Ohio Department of Education and Workforce invites districts and schools to a two-day convening to:

- Learn how to **address structural issues**, such as enrollment decline and staffing shortages.
- Learn how to **use data and evidence** to inform programmatic tradeoffs, and to implement a culture of continuous improvement and learning.
- **Connect** with and learn from their peers.

We recommend attending as a **leadership team** with members that have decision-making authority and knowledge of academics and finances.

## WORKSHOP HIGHLIGHTS

### 1. Outcomes-Based Contracting

A plenary panel discussion highlights the how and why of implementing outcomes-based contracting for programs, plus a breakout session to dig deeper.

### 2. Blending and Braiding Funds

Learn from Ohio's Federal Programs Team about allowable use of funds, so you can better understand how to effectively leverage all your resources.

### 3. Implementing Best Practices

Hear from experts and district leaders about their experience implementing best practices around ten priority areas, including literacy, math, career connections, student wellness, and absenteeism.
